

CUMC Robotics Club

2018-19

For Middle School Students Ages 11-15

2 Saturdays a Month

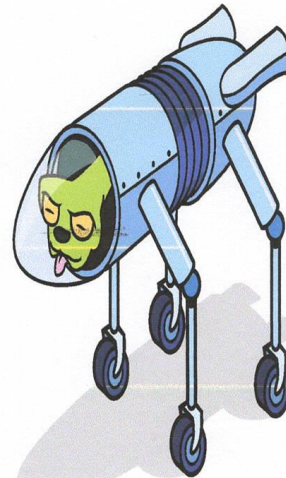

If you are interested in learning how to build and program robots in a fun setting, then this club is for you.

The club is open to all interested boys and girls.

You do not have to be an academic star.

All are welcome and will learn things like:

- **Electronics** – Circuit board assembly and test, and selection of electronic components
- **Mechanical systems** – Gears, levers, motors
- **Mathematics** – Basic principles related to robot mechanical and electrical systems
- **Computer programming** – Logic functions, program flow, simple program language-Robot C

Interested in this exciting opportunity??

Please contact Bill Pailen at (301-606-8273).

**The Robotics Club will meet on the
2nd & 4th Saturdays @ 10 AM in 2018/2019**

Parents and guardians are welcome to attend, too!

**Colesville United Methodist Church Rev. Dr. Michael W. Armstrong, Pastor
52 Randolph Rd., Silver Spring, MD 20904 www.cumc.org 301.384.1941**
